# NEW CHIROPRO & CHIROPRO PLUS

**Simplicity.** The cornerstone of the new range of implant and oral surgery motors developed by Bien-Air Dental.

When designing these two new systems, everything was geared towards making these ingenious solutions simpler to use, down to the smallest detail.

Despite their different fields of application, the **Chiropro** and **Chiropro PLUS** systems are both equally simple to use.

SWISS  MADE

## ABSOLUTE PRECISION

Thanks to its high-precision electronic system, the torque selected on the console corresponds exactly to the torque obtained at the output of your instrument\*. No further calibration is needed. It's as simple as that.

## PRE-SET SURGICAL PROTOCOLS

Thanks to the pre-set surgical protocols, you can carry out your procedures in no time. Use your patient's clinical data to determine the number of sequences required to perform your procedure - 3, 4 or 5. The parameters of each step are then automatically displayed. You can now simply treat your patient. It's as simple and reliable as that.

## CLEAR, CONCISE INTERFACE

The simple and discreet screen provides you with access to all the information you need to ensure your procedure is a success: choice of handpiece, speed, torque, irrigation flow and direction of rotation.

## AND MAINTENANCE IS SIMPLE, TOO

The single rotary knob is easy to remove from the unit for sterilization. In addition, the control panel is protected by highly resistant glass that is easy to clean.

# PURE SIMPLICITY

## INTUITIVE NAVIGATION

With its single rotary knob, navigation is easier than ever before. Simply turn the knob to scroll through the menus, then click to confirm your choice.

ORAL SURGERY  
motor system

\* According to tests carried out in Bien-Air Dental's research laboratory, the torque values displayed on Bien-Air Dental systems are considerably more accurate (+/- 5% margin of error) than those displayed on competitors' systems (+/- 10% margin of error).

# NEW CHIROPRO

General dental practitioner or experienced surgeon, are you seeking a fast, simple and efficient solution for your implant dentistry procedures?

Look no further than the **Chiropro**. Your perfect solution for precise and smooth placement of implants.

## IMPLANT DENTISTRY

Powered by the **Chiropro**, the new MX-i micromotor combined with the CA 20:1 handpiece offer you the very best rotary technology for all your implant-related procedures.

Coupled with the MX-i micromotor, the CA 20:1 handpiece (also available in Kirschner/Meyer and Micro-Series versions) provides unparalleled speed stability for precise and smooth placement of implants. As the most durable implantology handpiece on the market\*, the CA 20:1 handpiece has a unique internal irrigation system. Thus, you are not bothered by the irrigation line when handling the instrument. You can carry out your procedures easily and with confidence.

PURE SIMPLICITY

IMPLANTOLOGY  
motor system

SWISS  MADE

\* According to tests carried out in Bien-Air Dental's research laboratory, the drive system of the CA 20:1 CA handpiece has been optimized to withstand more than 1600 uses at 70 Ncm. This substantially increases the instrument's service life.

# NEW CHIROPRO PLUS

In addition to implant dentistry, do you also perform oral surgery procedures?

Then, discover the **Chiropro PLUS**, specially developed for oral surgeons and oro-maxillo-facial surgeons. Thanks to the many possible motor-instrument combinations, the **Chiropro PLUS** is the perfect system for carrying out all your periodontal surgery and oral surgery procedures, including hemisection.

## ORAL SURGERY (incl. hemisection)

Combined with the PM 1:2 straight handpiece and the MX-i PLUS micromotor, the **Chiropro PLUS** is the perfect solution for your oral surgery procedures, particularly wisdom tooth extraction.

Thanks to the high power of the PM 1:2, the sectioning time is reduced by 70% (just 12 seconds to fully section a tooth) and the force required is significantly reduced. The risk of overheating is considerably reduced thanks to the self-cooling system built into the MX-i PLUS.

## ORAL SURGERY & PERIODONTAL SURGERY

You can also carry out your oral and periodontal surgery procedures using the combination of the **Chiropro PLUS**, MX-i PLUS micromotor and new CA 1:2.5 highspeed handpiece.

While the angular shape of the handpiece might be better adapted than a straight handpiece depending on the target operating area, the high torque provided by the MX-i PLUS and its built-in self-cooling system ensure a quick procedure without overheating, even during long and complex procedures. Work safely and predictably!

# NEW CHIROPRO OFFERS

## NEW CHIROPRO + MAINTENANCE TRIOPACK

2'490 €

1 x SET CHIROPRO REF 1700708-001

- ✓ Intuitive navigation using a single rotary knob
- ✓ Micromotor MX-i LED with ceramic ball bearings 3-year warranty
- ✓ Maximum torque 70 Ncm

### Offer:

- 1 x Chiropro 3<sup>rd</sup> Gen Console
- 1 x MX-i LED 3<sup>rd</sup> Gen Micromotor, 3-Year Warranty
- 1 x MX-i LED 3<sup>rd</sup> Gen Cable
- 1 x Foot Pedal
- 1 x Handpiece holder
- 5 x Irrigation Lines
- 2 x Sterile Protective Films
- 1 x Trio Pack Maintenance

## NEW CHIROPRO with 1 Contra-angle CA 20:1 L + MAINTENANCE TRIOPACK

2'990 €

1 x SET CHIROPRO REF 1700707-001

- ✓ Intuitive navigation using a single rotary knob
- ✓ Contra-angle with light CA 20:1L Micro-Series 2-year warranty
- ✓ Micromotor MX-i LED with ceramic ball bearings 3-year warranty
- ✓ Maximum torque 70 Ncm

### Offer:

- 1 x Chiropro 3<sup>rd</sup> Gen Console
- 1 x Contra-angle CA 20:1 L Micro-Series
- 1 x MX-i LED 3<sup>rd</sup> Gen Micromotor, 3-Year Warranty
- 1 x MX-i LED 3<sup>rd</sup> Gen Cable
- 1 x Foot Pedal
- 1 x Handpiece holder
- 5 x Irrigation Lines
- 2 x Sterile Protective Films
- 1 x Trio Pack Maintenance

## NEW CHIROPRO with 2 Contra-angles CA 20:1 L + MAINTENANCE TRIOPACK

3'590 €

1 x SET CHIROPRO REF 1700707-001  
+ 1 x CA 20:1L MICRO-SERIES REF 1600692-001

- ✓ Intuitive navigation using a single rotary knob
- ✓ Contra-angle with light CA 20:1L Micro-Series 2-year warranty
- ✓ Micromotor MX-i LED with ceramic ball bearings 3-year warranty
- ✓ Maximum torque 70 Ncm

### Offers:

- 1 x Chiropro 3<sup>rd</sup> Gen Console
- 2 x Contra-angle CA 20:1 L Micro-Series
- 1 x MX-i LED 3<sup>rd</sup> Gen Micromotor, 3-Year Warranty
- 1 x MX-i LED 3<sup>rd</sup> Gen Cable
